

Last Sunday after the Epiphany
Transfiguration of our Lord
February 6, 2005

Bethabara Moravian Church believes because of the love of Jesus Christ revealed in us, that Jesus is "the way, and the truth, and the life and no one comes to the Father but by (him)." John 14:6

Bethabara Moravian Church leads people to an active relationship with Jesus Christ by providing a path of worship, prayer, and knowledge of God's Word through our Moravian heritage and Christian fellowship.

FOCAL SCRIPTURE PASSAGES

Mark 3:31-35

31 And his mother and his brothers came; and standing outside they sent to him and called him. 32 And a crowd was sitting about him; and they said to him, "Your mother and your brothers are outside, asking for you." 33 And he replied, "Who are my mother and my brothers?" 34 And looking around on those who sat about him, he said, "Here are my mother and my brothers! 35 Whoever does the will of God is my brother, and sister, and mother."

[Revised Standard Version]

Vienen después sus hermanos y su madre, y quedándose afuera, enviaron a llamarle. 32 Y la gente que estaba sentada alrededor de él le dijo: Tu madre y tus hermanos están afuera, y te buscan. 33 El les respondió diciendo: ¿Quién es mi madre y mis hermanos? 34 Y mirando a los que estaban sentados alrededor de él, dijo: He aquí mi madre y mis hermanos. 35 Porque todo aquel que hace la voluntad de Dios, ése es mi hermano, y mi hermana, y mi madre.

LIFELINE SCREENING

Bethabara Moravian Church will be hosting a Life Line Screening for the community on Thursday, April 7th. Life Line Screening will offer four different health screenings using Doppler color flow ultrasound:

- 1) A Stroke/Carotid Artery Screening - which looks for plaque buildup in the carotid arteries, which leads to stroke. (Up to 75% of all strokes are linked to carotid artery blockage);
- 2) An Abdominal Aortic Aneurysm (AAA) test - which checks for an aneurysm (enlargement) in the abdominal aorta that could lead to a ruptured aortic artery. The majority of people who have an abdominal aneurysm have no symptoms and the mortality rate for a ruptured AAA is about 80-94%;
- 3) An Ankle Brachial Index (ABI) - which screens for Peripheral Arterial Disease or PVD in the lower extremities. Peripheral Arterial Disease is a strong predictor for heart disease.
- 4) And a bone density screening, which tests both men and women for the early detection of osteoporosis.

*These screenings are painless, non-invasive, and requires ten minutes or less to complete. The cost is \$35-\$45 each or all four for only \$129. These screenings are typically not part of a routine physical and costs about \$600-\$1,000 using similar equipment in the hospital setting. **YOU MUST PRE-REGISTER BY CALLING 1-800-324-1851.***
